

Christwood Foundation exists to provide philanthropic support of Christwood's mission to help seniors live with dignity, independence, and the assurance of needed physical, spiritual, and medical care.

Christwood Mission Driven Programs Funded through the Christwood Foundation

- The **Community Enrichment Fund** supports those critical elements that go beyond quality care to truly spark joy and bring a deeper meaning to our residents' experience. The **Community Enrichment Fund** supports ongoing improvements that respond to changing resident needs through innovative capital projects and educational programs.
- **Health Center Excellence Fund.** Rising health care costs can all too often mean that the most groundbreaking medical advances are not immediately adopted in long-term care settings. At Christwood however, residents and their families take comfort in knowing that the quality of care we provide is unparalleled anywhere else in our region. The Health Center Excellence Fund ensures that our residents in Assisted Living, Skilled Nursing, and Longleaf Cognitive Care receive the very best-in-care services, technology, and medical advances. Your gift to the Health Center gives peace of mind and the innovative care patients deserve.
- The **John A. Lohman Fund**, a benevolent care fund – founded by residents and named after Christwood's first executive officer – ensures that residents, who through no fault of their own, have outlived their financial resources, can securely remain part of the Christwood community. Your gift to the Lohman Fund is peace of mind in the life of each Christwood resident.
- The **Employee Education Fund or Employee Benevolence Fund.** Part of our commitment to our employees is to support staff in their pursuit of exceptional educational opportunities that enriches their lives and gives the work of caregiving purpose and meaning. We also wish to help staff members who may suffer from unforeseen financial hardship. Staff members could face catastrophic events that put their lives and employment in jeopardy. Your gift to the **Employee Education or Employee Benevolence Fund** gives meaning to Christwood's caregivers and the comfort of consistency to our residents.
- The **Community Center at Christwood Fund.** The Center is at the heart of Christwood's vision to expand our impact, become an active, integral partner in the Northshore community, and meet this burgeoning need of our aging population. Already, the Center transforms the aging experience through health and wellness services, and education – for Christwood residents and more than 700 "55 and better" members of the broader community. Medically integrated, the Community Center at Christwood is defining the future of professional health services to our aging population and helps to improve outcomes for those grappling with chronic diseases and multiple risk factors. Yet there is so much more we could do – including a deepening of intergenerational programs that forge strong bonds between our community's oldest and youngest citizens.
